LETTER FROM JESSICA AND CAREN:

When choosing a school, you want a place where your child will feel happy and secure, in an environment that stimulates learning. You look for a place where your child will be treated with respect as an individual, where children discover what is expected of them in a community that they help create. You want a place with a consistent, highly regarded approach to early childhood development. You look for a place with dedicated directresses. Baobab Montessori is such a place!

Baobab Montessori was founded in 2011 by two young passionate Montessori Directresses wanting to make their mark in the lives of children and their community. Baobab Montessori is a privately run Montessori school in the heart of Bryanston. Our school strictly follows the teaching philosophy of Maria Montessori. Classes are grouped into 2 age groups; 18 month to 2 ½ years old and 2 ½ years to 6 year olds. These two different environments cater for the child's individual needs and developmental stages they experience. We operate on a ratio of not more than 15 children to 1 qualified directress.

We are open from 7:30am to 17.30pm Monday to Friday, where our ring time signifies the start of our day at 8:30am, followed by the work cycle. Children then have their snack which is followed by supervised free play from 11:30am until 12:30pm. Between 12:30 and 1:00pm parents are able to collect their children if on a half day program, or until 17.30pm if doing full day. As we are a private school we run on a three term year.

Montessori Education is often described as an 'Education for Life'. It gives children a sense of belonging to a community and fosters an attitude of respect for self and others and develops trust in others. Young children will often say "Help me (to learn) to do it for myself". In the child-centred environment with appropriate care and guidance of staff, the child's self-confidence, independence and sense of the joy of learning is fostered.

Baobab Montessori focuses on the child's overall growth and development. Our curriculum includes all area of the Montessori environment as well as gross motor activities, storytelling, singing, music and movement and arts and crafts. The Montessori pre-school program encourages individual development at the child's own pace and according to their own needs and interests. Children are free to select their own activities and work until their interest is satisfied. There is only one of each piece of equipment, which helps to teach the child patience. Materials must then always be returned to its specific place once the activity is completed. Self-discipline, concentration, pride in one's own work, and respect for other children's activities and the environment are the underlying goals. All Directresses are trained to 'follow the child' and plan and implement a syllabus which focuses on the 'whole child' and their needs. The typical Montessori environment is peaceful, with the children working passionately at their chosen activities while the directress, although an integral part of the environment, takes a passive roll, observing children and only giving help when necessary.

We look forward to welcoming you and your child into Baobab Montessori and trust you will be very happy whilst in our care.

Jessica and Caren
